

# DR. B.R ADCL EMPLOYEES' ASSOCIATION(R)

Ref No. **AGM/21022-23/3**

Date...**01.11.2022**...

**Dear Members,**

## **Competition is the best form of motivation.**

Ups and downs are part of our life; we cannot deny this. We are all aware of our Corporation situation and the pressure being exerted on us in the office and on the field. The influence of outsiders and their varied strengths to grab our opportunities deeply hurt us. We are not too far from becoming mere spectators in the hands of these pressure groups.

We are becoming answerable to many in the day-to-day work, forcing us to undergo tremendous mental stress. We are also aware working under pressure is the basic expectation of the job on which we are seated, but we need to give a new beginning with a fresh mind and a united shoulder to bear the hassle.

We Hope this association will play its role by stopping the dissemination of the pressure being forced on us for various reasons. Though the association looks small now, the contributory efforts of all can bring changes gradually. It is the time to show our unity and to portray that we always stand by each other.

We are all aware that we are set to meet soon to elect the office bearers. Our responsibility is to place the best on the seat to care for the association and its primary objects. Let us encourage ourselves and others to file nominations for office bearers.

When the handles in the clock strike 6.30 PM on 2nd November 2022, the time will cease to file nominations. Hence, we request you to file the nominations and take up the challenge to rewrite our path. We want the best to come up for the worthy cause of our destiny in the corporation.

**No competition, no progress.**

For BRADCEA,

Acting President
